Excerpt of the Village of New Haven Ordinance 337 as codified 495-44(A) and (B) Late payment charges and discontinuance of service rates; billing.

(A) Billing frequency. All charges for and relating to water usage, sewer, and other applicable charges and debts shall be billed to the consumer on a monthly basis.

(B) Payments. All charges for and relating to water and/or sewer made against the user of the premises supplied shall be due and payable within 20 days from the date of the bill ("billing date"), and for all bills not paid when due, a penalty of 10% of the amount of such bill shall be added upon the expiration of the 20 days. The billing date shall be the date printed clearly and legibly on the invoice. The charges for service shall become a lien against the premises furnished service upon such service being provided. If the charges are not paid within 30 days of the billing date, the water may be turned off to any premises against which such charges are outstanding. Notice of the shutoff shall be sent by regular mail and posted in an easily noticed place on the premises prior to the shutoff and discontinuance of the services. Upon the water being turned off, the water will not be turned on again until the charges have been paid in full, together with the current turn-on fee.
